

# Highland Games

## - throwing the rubber boot – manual

### Preparation:

- ✓ an old pair of rubber boots
- ✓ chalk drawing of the field
- ✓ prepare vocabulary cards (at least 7 x 5) and/or let your students prepare some vocabulary cards
- ✓ cut Nessie into 4 pieces as a puzzle, for later use as a reward
- ✓ build teams of 3-4 students (according to the groups we used yesterday) → 7 teams
- ✓ Paper + pen or chalk for the drawing part

### Procedure:

Team 1 starts. One member of the group throws the rubber boot onto the field from a distant position. Another member has to pull a vocabulary card and explain it to the other seven groups according to the position of the boot. The group that guesses the word first gets a point – a part of Nessie. Team 2 starts...

**Goal:** Guessing as many words as possible → get all the pieces of the Loch Ness monster to complete the game
